

## Saroj Kumar Jha

Saroj Kumar Jha is the Program Manager for the Global Facility for Disaster Reduction and Recovery in the Sustainable Development Network at The World Bank Group. In his position, he provides strategic guidance and policy advice for the Bank's disaster prevention and preparedness programs. As the head of the GFDRR Secretariat, he is also responsible for managing the operations of World Bank's partnership with UN and donors for mainstreaming disaster risk reduction in development plans of the natural disaster hotspot countries.

Saroj K. Jha has been a World Bank hazard management specialist since 2005, undertaking a wide range of research, policy and operational assignments. Prior to joining the Bank, he was a member of the Indian Administrative Service for more than fifteen years. In addition to coordinating a large number of post-disaster humanitarian relief and long-term recovery and reconstruction projects, he has worked extensively on multi-hazard risk and vulnerability assessments, design of end-to-end early warning systems, design and implementation of public training and capacity building programs, policy and institution building initiatives, public-private-people partnerships for disaster prevention and mitigation in different countries. He also worked with the United Nations Development Programme (UNDP) in India and Iran for more than five years coordinating the implementation of disaster recovery and mitigation programs. He has been closely associated with development of national disaster management systems in several countries. He holds degree in civil engineering from Indian Institute of Technology(IIT) Kanpur and has authored several publication on disaster risk reduction.
